

Website Accessibility Statement

At **West Creek Endoscopy**, we are committed to ensuring digital accessibility for all users, including individuals with disabilities. We strive to continually improve the user experience and apply relevant accessibility standards to support inclusive access to healthcare information.

Accessibility Features

Our website is built using the Wix platform, which includes several built-in accessibility features:

- Keyboard navigation support
- Smart focus indicators
- Semantic heading structure
- ARIA attributes for screen reader compatibility
- “Skip to Content” links
- Alt text support for images
- Automatic DOM order for logical navigation

We have used the **Wix Accessibility Wizard** to identify and address common accessibility issues and have made adjustments to improve usability across devices and assistive technologies.

Standards Applied

We aim to conform to the **Web Content Accessibility Guidelines (WCAG) 2.1 and 2.2 Level AA**, which are recognized as the international standard for web accessibility.

Limitations

While we have made efforts to ensure accessibility, some areas of the site may not yet be fully accessible:

- Third-party apps or embedded content may not meet WCAG standards
- Custom code or advanced design elements may require further review
- Some media files and documents may not be fully optimized for screen readers

We are actively working to improve these areas and welcome feedback from users to help us enhance accessibility.

Contact

If you experience any difficulty accessing content on this site or have suggestions for improvement, please contact us:

Accessibility Coordinator

Name: Kailey McCauley, Administrator

Email: kaileym@westcreekendoscopy.com

Phone: (703) 563-0042

We aim to respond to accessibility-related inquiries within 5 business days.
